Compatibility

[Precautions on use]

- The compatibility of devices not listed on this website has not been checked. In addition, depending on the device, specifications may change after the compatibility check and the information may differ from the information in the list.
- The results of the compatibility check may differ depending on the use conditions, settings, and functions of the mobile device.
- When updating the OS of the mobile device (such as Android, iOS), the stored information (pairing) may become invalid. If it becomes invalid, delete the paired device from both the mobile device and Mazda Connect and perform pairing again.
